

## Installation of CasaXPS

*Note the license for CasaXPS is a site license for the University of Kansas (KU) and cannot be used by people who are not affiliated with KU.*

- Download the most current version of the CasaXPS program from [www.casaxps.com](http://www.casaxps.com)
- Unzip the files.
- Obtain the administrative username and password for the computer that will run the software.
- Drag the folder CasaXPSxxxx to the Programs folder in Windows XP and to the Program Files (x86) folder in Windows 7.
- Open the CasaXPSxxxx folder and make a shortcut to the CasaXPS.exe file.
- Drag the shortcut to the desktop.
- You can now start the CasaXPS program.
- Go to the “?” on the CasaXPS menu bar.
- Open a browser and retrieve the EULA file at <https://dept.ku.edu/~proton/casaxps/>  
*A KU Online ID and password are required to retrieve the EULA.*
- In the EULA PDF document, you will find the username and license number. Enter them into the CasaXPS window and click Update License.
